

# FLORAL IMAGES BY PATRICIA BONAMO

Patricia Bonamo is a well-known botanist who has embarked into digital photography of flowering plants. Ms. Bonamo placed second in the photography competition of the **2006 Miami International Orchid Show**. This year, she obtained a first place place in the portrait category, placed third in the *in situ* category and received the photography trophy award in the **2007 Miami International Orchid Show**.

An experienced grower of orchids, Patricia offers a variety of digital photographs of various orchid genera such as paphiopedilum, phragmipedium, dendrobium, oncidium and phalaenopsis. Digital images will be available for sale at the 2007 STOS show.
